## SUMMARY

Dedicated and purpose-driven Junior Engineer with a foundational understanding of web development, including experience with the Django Framework. Recently completed comprehensive training at SmartCode, focusing on Python programming language and various associated libraries. Eager to leverage newly acquired skills and knowledge to contribute effectively to a dynamic team environment while actively seeking opportunities for skill refinement and professional growth.

## SKILLS

Python

Django

Django REST framework

HTML

GitHub

Git

PostgreSQL

Numpy

Problem-Solving and Troubleshooting

Strong Analytical and Debugging Skills

## EXPERIENCE

### BACKEND DEVELOPER

SmartCode      January 2023 - June 2023

- I used Django and Rest Framework for block processing.
- users registration
- an opportunity of integrated actions, comments and ratings.
- Database administration

### (PERSONAL PROJECT)- ARMZONA

<https://www.armzona.shop>

- A fully functional project has been developed that allows the user to register, view posted product announcements, and order. Working users have the opportunity to post products, modify previous announcements, or delete them. In case of an order, receive a message to their email.
- The backend was completely developed by me using Django\_framework and Rest\_framework. PostgreSQL was used as the database.
- HTML, CSS, and JavaScript are used to create corresponding interfaces.

## EDUCATION

**NATIONAL POLYTECHNIC  
UNIVERSITY OF ARMENIA**

information technology

**SMART CODE ACADEMY**

Python / Django
